NILFISK

World class vacuum cleaners established for 100 years

100 Years of Nilfisk

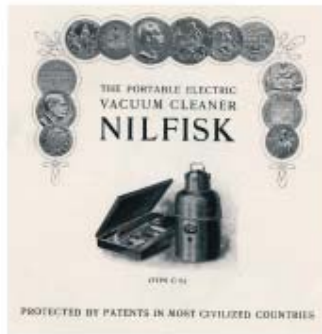

The founder of Nilfisk, P.A. Fisker, applied to join the Copenhagen School for Electro Engineering in 1898. With his life savings and some old tools, he moved to Copenhagen in 1906 and started his far-sighted production of small electric motors in a backyard workshop. He later went into partnership with an old colleague, H.M. Nielsen, to form "Fisker & Nielsen".

The introduction of electricity into the home was a major factor for the success of the vacuum cleaner. Cables provide power to towns and villages alike, often supplied by Nordisk Kabel & Trad in Denmark, now known as NKT and the owners of Nilfisk-Advance today.

1906 Nilfisk sets up in Denmark.

1910 Founder of Nilfisk, P.A. Fisker, patents a vacuum cleaner using the name Nilfisk. It is the first electric vacuum cleaner in Europe, which weighs just 17.5 kg and can be operated by a single person.

1922 A new vacuum cleaner is launched, available for the first time on hire-purchase. This enables the middle class to afford a vacuum cleaner for the first time.

1932 A new and radical Nilfisk vacuum cleaner is introduced. In comparison to its contemporaries, it is almost silent and becomes known as "the Silent Dane".

More than 4,500 employees around the world. A total of seven production lines in different countries.

1998 The company is re-named Nilfisk-Advance, and a new logo is introduced.

1994 The Advance Machine Company in Minneapolis, USA is acquired by Nilfisk. Nilfisk is now one of the biggest vendors of professional cleaning appliances in the world.

1986 The first in the business that achieves the ISO 9002 certification for the vacuum cleaner factory.

About Nilfisk Vacuum Cleaner

1 5-Year Warranty

Nilfisk has been making vacuum cleaners since 1906, the machines are built to last. The robust design of Nilfisk vacuum cleaner gives you confidence. It is not a problem for giving our customers 5-year warranty. Our warranty includes on-site maintenance service, as such you don't need to take your machine to and fro for check-up.

2 Excellent filtration performance

The advanced, certified HEPA (High Efficiency Particulate Air) filter is already recognized as one of the best on the market. It is placed behind the motor for enhanced performance. The result is a system that extracts an incredible 99.995% (MPPS) according to EN 1822 of the microscopic dust particles that are often troublesome to people, especially those who are suffered from allergies and asthma (HEPA class H13/14). Most people are sensitive to dust of one type or another but with a Nilfisk everyone can breathe easily.

3 Unique features

- Extreme dust pick-up
- Extreme silence
- Excellent details
- Low energy, unique for Extreme Eco

Product range of Nilfisk

Nilfisk Extreme Eco

Low energy and recyclable vacuum cleaner – the environmentally friendly choice

Features:

1. Large filter area (3700 cm²) allows high air flow to increase efficiency
2. Low energy consumption (1250W) but excellent cleaning ability
3. More than 95% of the machine can be recycled and all the packaging can be 100% recycled when disposed
4. With the highest class filter, HEPA H14, having filtration efficiency of 99.995%
5. Low noise level
6. Long service life – 5-year warranty

Accessories:

1. Dust bag
2. Hard floor nozzle
3. HEPA H14 filter
4. 3 on-board accessories

Nilfisk Extreme Free

100-year anniversary of Nilfisk Extreme Series

Features:

1. A powerful motor - 2000W
2. With the highest class filter, HEPA H14, having filtration efficiency of 99.995%
3. Excellent details – remote control
4. 5 variable speed control
5. Electronic filter and bag full indicator
6. Low noise level
7. Long service life – 5-year warranty

Accessories:

1. Dust bag
2. Hard floor nozzle
3. HEPA H14 filter
4. 3 on-board accessories

Nilfisk Extreme X300

A completely uncompromising vacuum cleaner, with exceptional performance.

Features:

1. An extra-powerful motor – 2100W
2. With the highest class filter, HEPA H14, having filtration efficiency of 99.995%
3. Excellent details – remote control
4. 5 variable speed control
5. Supplied with active air fresher filter
6. Electronic filter and bag full indicator
7. Low noise level
8. Long service life – 5-year warranty

Accessories:

1. Dust bag
2. Hard floor nozzle
3. Turbo nozzle black
4. HEPA H14 filter
5. 3 on-board accessories

Nilfisk Business CDB 3000

All purpose vacuum cleaner, designed for large families and for business cleaning needs, Nilfisk Business can cope with the heavy jobs.

Features:

1. Very robust and durable construction
2. High suction power
3. Can run with or without the large dust bag
4. Efficient filtration, using HEPA H13, having filtration efficiency of 99.97%

Accessories:

1. Dust bag
2. Hard floor nozzle black
3. HEPA H13 filter
