

# Biotek Ozonated Water System

earth's most powerful purifying agent  
clean. natural. OZONE

Ozone is nature's most effective and powerful tool for purification – the same element that cleanses the Earth's atmosphere. A colorless gas at room temperature, ozone has the scent of fresh rain after a storm. It is eager to destroy germs, viruses, and microbes that cause illness. When impurities have been eradicated, Ozone naturally reverts to oxygen, leaving the Earth as it was found. Ozone is a simple, powerful, and natural purifier – and now, it can be made on demand.

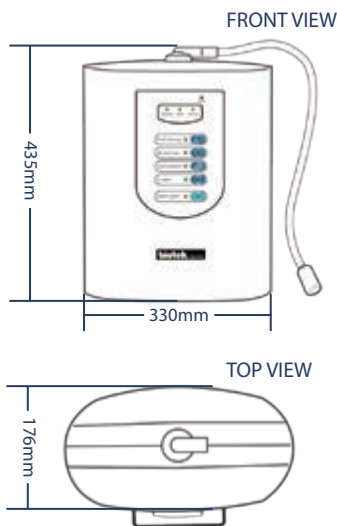

Model: H-7110

- Eliminates bacteria & viruses
- Dental instruments & pipe disinfections
- Produces effectiveness over 3,000 times more powerful than chlorine bactericide
- No production of harmful by-products or chemical residual (safer than using chemical disinfectants)
- No further rinsing required
- Low maintenance costs

## Dimension

## Product Specification

Output	O <sub>3</sub> Water Concentration	1 ~ 3 ppm
	O <sub>3</sub> Water Output Capacity	150 L/hr ± 10%
	O <sub>2</sub> Water Concentration	20 ± 5 ppm
	O <sub>2</sub> Water Output Capacity	90 L/hr ± 10%
	Output Pressure	0.1 ~ 0.3 kg/cm <sup>2</sup>
Input	Input Water	Municipal water
	Input Pressure	1.2 ~ 8.0 kg/cm <sup>2</sup>
	Input Water Temperature	5 ~ 30°C
Features	Power Supply	200 ~ 240V / 50 ~ 60Hz
Appearance	Net Weight	8.5 kg / 18.7 pounds
