

InSinkErator Evolution Series are the finest grinding disposers available anywhere in the world that far outperforms any units on the market to date. Evolution 100 and Evolution 200 are quieter and more powerful than ever before.

Hygienic

InSinkErator food waste disposers deal with food waste hygienically and instantly – rather than leaving it in a bin to encourage smells, bacteria and insects.

Responsible

Less food waste has to be collected and transported to land fill sites – which helps to reduce greenhouse gases.

Practical

Food waste disposers fit neatly under the sink without taking up valuable kitchen space.

Safe

Safety isn't a problem for a young family – the grind ring does its work in seconds and there are NO blades.

Prestigious

Adding a food waste disposer assures the homeowner that they have today's most modern kitchen.
