biotek ozone

Pure Water Pure Life

Start to look after your family by choosing the best purified water, especially in our polluted atmosphere.

Ozonated water disinfects your kitchen, laundry, and maintains the freshness of your food. It also gives extra care for your baby through sterilizing feeding bottles and toys.

Free from bacteria, virus and chemicals, Oxygenated drinking water has 20ppm oxygen concentration, four times higher than tap water. High oxygen concentration promotes blood circulation, metabolism and enhances the immune system.
