* Simply connect SUV sterilizer to water supply. Water flows through a 2-stage filtration for sediment and chlorine removal while the ultra-violet sterilizer purifies water to safe drinking standard. It also equips with failsafe auto shut-off safety device.

* SUV 殺菌器可直接接駁自來水, 先過濾水中沉澱物, 再利用活性碳清除化學雜質如氯氣等, 然後以消毒紫外光代替煮沸過程徹底殺菌。另備停電後自動斷水保險設計, 確保飲用水質純淨衛生。
